GOALS AND OBJECTIVES

The board's objective in the design, contents and the delivery of the education program is to provide an equal opportunity for students to pursue an education free of discrimination on the basis of race, creed, color, sex, national origin, marital status, religion or disability.

In providing the education program of the school district, the board shall strive to meet its overall goal of providing the students an opportunity to develop a healthy social, intellectual, emotional, and physical self-concept in a learning environment that provides guidance and encourages critical thinking in students.

The board of education wishes to have the staff present evidence of achievement, or lack of achievement of pupils in the light of our school's goals. It is clear that factual evidence of the productivity of the school is the board of education's best device for evaluating the educational system, for guiding improvement efforts, and for fostering approval of the schools.

The superintendent of schools and his or her staff shall provide the board of education with a continuous assessment of the quality of the school's programs.
